'From Threats to Solutions: Advancing Biosecurity'

The 5th International Congress on Biological Invasions brings together the world's biosecurity scientists, policy-makers, and practitioners to address global biosecurity issues.

Join us in 2027 as we explore the theme 'From threats to solutions: advancing biosecurity' through a range of fascinating presentations, posters, workshops, and field trips within an internationally recognised biodiversity hotspot.

Set within Western Australia's thriving capital, Perth, the conference puts you at the centre of the latest biosecurity developments and within reach of natural wonders and thriving agribusiness that embody the challenges and triumphs of good biosecurity practices.

ICBI 2027 is supported by the following Congress partners and sponsors. To become a sponsor, visit the website sponsorship page: icbi2027.com/sponsorship-exhibition-opportunities

5th International Congress on Biological Invasions

ICBI 2027

Murdoch University I Perth I Western Australia

Sunday 18th -Wednesday 21st April 2027

Join us to advance global biosecurity

ICBI 2027 is an opportunity to meet with colleagues from around the world to discuss the latest advances in biosecurity research anda management, from identifying, understanding and mapping biological invasions, to predicting and managing their spread and impact.

Research students and Indigenous land managers are encourgaed to participate through **student discounts**, and offers of **Indigenous Participation Support**. Visit the registration page on our website to find out more: icbi2027.com/registration/

Congress Sub-themes and Sessions

The Congress sub-themes identify the scope of prirorties being addressed through ICBI 2027. These include:

1. Advancing Global Biosecurity Policy
2. Addressing the Impact of Climate Change on Biosecurity Threats
3. First Nations in Biosecurity Management
4. Citizen Science Engagement for Effective Invasive Species Management
5. Technological Advancements in Pest and Pathogen Management
6. The Ecology and Evolution of Invaders
7. Emerging Biosecurity Threats / Issues
8. Recovery and Ongoing Management of Biological Invasions.

More than 35 sessions have been created under the Congress sub-themes. Session Chairs are seeking abstract submissions now.
