

Complex Forests for Complex Challenges

Bringing together expertise in uneven-aged and mixed species forests to provide insights into forest dynamics and stewardship in a time of great social and environmental change.

1st Announcement IUFRO 1.05 & 1.09 Conference

20-26 June 2027

**University
of Vermont**

Topics:

- Complex stand dynamics of uneven-aged and mixed species forests under climate change
- Balancing complex objectives and desired outcomes amid forest risks and uncertainties
- Silviculture for multiple services and products in complex forest structures
- Assessing/monitoring complex forest structure and change due to climate change

Venue: University of Vermont, Burlington, VT, USA

Preliminary Program:

Sunday, 20 June 2027	Travel day & evening icebreaking
Monday, 21 June 2027	Conference Day 1
Tuesday, 22 June 2027	Conference Day 2
Wednesday, 23 June 2027	In-conference field trip
Thursday, 24 June 2027	Conference Day 4
Friday, 25 June 2027	Optional Post-conference field trip
Saturday, 26 June 2027	Travel day
