

International Oak Symposium: Science-Based Management for Dynamic Oak Forests

October 7-10, 2024

Knoxville, Tennessee, USA

Call for Abstracts - reminder due January 19th 2024!

Please consider submitting an abstract for an oral or a poster presentation at the 2024 International Oak Symposium (October 7-10, 2024). Oral presentations and posters should showcase research in silviculture, ecology, forest management, health, applied genetics, economics, forest products, or similar fields for a better understanding of oak regeneration, trees, stands, ecosystems, or landscapes. Oral presentations and posters on science-based collaborative projects or programs such as technology transfer, tree improvement, or other initiatives are also welcome. The deadline for Abstract submission is January 19, 2024.

Symposium registration is not yet open, but it will be open prior to notification of acceptance of the submitted paper or poster abstract.

All oral presenters will be asked to submit a short paper (~1000 words), which will be published in the conference proceedings that will be available at the Symposium. Instructions for short papers will be provided at the time of notification of oral or poster presentation acceptance for the concurrent sessions.

Presenters (oral and poster) will also have the opportunity to submit a full-length manuscript to a special journal issue that highlights prominent work delivered at the Symposium. More information on the special issue will be provided at a later date.

For more information about the abstract submission process, please visit the [symposium website](#). Direct any questions you have to Stacy Clark (stacy.l.clark@usda.gov) or Callie Schweitzer (callie.schweitzer@usda.gov).

Sponsorship

The planning team encourages interested individuals, agencies, organizations, and businesses to join our wonderful sponsors to help support the International Oak Symposium in 2024. Your sponsorship will help reduce overall costs for attendees, increases opportunities for attendance of students and underserved professionals, and will enhance the attendee experience. This symposium will be an opportunity to showcase the work and opportunities available in your organization, agency, or business to professionals, researchers, and students. Sponsorship packages are available on the [symposium webpage](#), and sponsorship can also be tailored to your specific needs.
