Submit your abstract!

FOREST TREES at Plant and Animal Genomes 31

Join your forest genetics colleagues at the Forest Trees Workshop for updates on the genomes of forest trees and **advances** in the application of genomics techniques in forest tree breeding and management.

This in-person workshop is held on Sunday, January 14, 2024 at the Plant and Animal Genome Conference (PAG 31; https://www.intlpag.org/31/), Town and Country Resort, San Diego, CA. The Forest Tree Workshop is a meeting of the International Union of Forest Research Organizations (IUFRO) Working Party on Tree Genomics

There is limited space for oral presentations, so please submit your abstract to this website for consideration (https://bioinformatics.uconn.edu/forest-tree-workshop-abstract-form/). **The deadline to for oral abstracts is Friday, October 27, 2023.**

Space for posters is (almost) unlimited! Abstracts for posters can be submitted directly to the PAG Conference Portal (https://www.intlpag.org/31/abstracts/poster-submission).

More information can be found here: https://bioinformatics.uconn.edu/forest-tree-workshop-abstract-submission/.
