

6th International Forest Engineering Conference

“Quenching our thirst for new Knowledge”

16th – 19th April 2018

Rotorua, New Zealand

A truly international forest engineering conference event and forum for researchers and practitioners. Featuring workshops, technical sessions, a field-trip, and time to enjoy some camaraderie. It will also showcase the local forest and equipment manufacturing industry that have implemented some world-leading developments. We look forward to seeing you here!
