

Forests, nature, and public space during the global pandemic

IUFRO Division 6 'Social Aspects of Forests and Forestry' webinar series

Friday March 19th, 2021, 14.00-15.00 hrs Central European Time

This webinar, the first in a series hosted by IUFRO's Division 6, presents and discusses research on the role of forests, nature, and public space in urban areas during the Covid-19 pandemic. How have our local green spaces helped us to cope with the public health crisis? Have we seen changes in the use and perception of urban nature? Will this affect the way in which we plan, design, and manage our urban green areas and public spaces, and perhaps even our cities?
