

# SAVE THE DATE

## **Tree Resistance to Insects & Diseases: Putting Promise into Practice**

The 6<sup>th</sup> International Workshop of the Genetics of Host-Parasite Interactions in Forestry

**August 5-10<sup>th</sup> 2018**

**Deer Creek Lodge & Conference Center, Mt. Sterling, OH**

For more information contact Richard Sniezko ([rsniezko@fs.fed.us](mailto:rsniezko@fs.fed.us)) or Jennifer Koch ([jkoch@fs.fed.us](mailto:jkoch@fs.fed.us))

We are very excited to announce this upcoming workshop, but due to several factors, the workshop will be limited to 110 participants. For organizational planning (including contracts we need to make for lodging), it would be VERY helpful if you would respond to the survey below (no 'commitment' but will provide us some guidance for planning purposes):

I am planning on attending the workshop

I may attend the workshop

I cannot attend the workshop but am interested in the Resistance (in trees) topic – please keep me on the mailing list
