Dear Colleagues,

on Tuesday, 25th of August we invite you to take part in the third meeting and workshop of Unit 7.02.04 on *viruses and phytoplasma of forest and urban trees* held in the evening 19.00-22.00 Henry Ford Building, Berlin, Garystraße 35, 14195 Berlin, www.fu-berlin.de.

The focus will lay on all different issues on virus and phytoplasma diseases of forest and urban trees. The topic of the meeting will bring innovative developments, methods and ideas, new viruses and risk assessment and management together.

Any presentation or comments on the following keywords are welcome:

- monitoring, visual survey,
- detection tools, detection steps,
- known pathogens, unknown agents,
- risk assessment and control
- epidemiological and ecological evidence, pathogen transmission,
- economic importance, seed quality, seedling quality, wood quality
- certification of seeds and plants

Participants will have the option to take part in the XVIII. International Plant Protection Congress (IPPC) 2015, from 24.08. - 27.08.2015 in the Henry Ford Building, Berlin, Garystraße 35. For further information and accommodation, please, see the website

<http://dpg.phytomedizin.org/de/xviii-international-plant-protection-congress-2015/the-congress/>

We look forward to hearing from all researchers/workers in the field of viruses and phytoplasma. Please feel free to forward this email to any of your colleagues and/or associates who might also be interested in attending.
