

Mistletoes:

Pathogens, Keystone Resource, and Medicinal Wonder

Presented by: IUFRO Unit 7.02.11 Parasitic flowering plants in forests

Join us **July 17th-22nd, 2016** at Southern Oregon University in beautiful Ashland, Oregon (USA). The five-day event will include plenary sessions on a variety of topics related to Mistletoe: Wildlife & Ecology, Anatomy, Pharmacology, Host/Parasite Interactions, and Recent Taxonomic Changes. The meeting will also include two field tours and great networking opportunities with your international colleagues.

Registration Fee (TBD) will include:

- Admission to Plenary Sessions
- Two Field Tours
- Breakfast and Lunch each day
- Poster Session and Social
- Closing Dinner and Banquet
