

Gerald N. Lanier Graduate Student Symposium - First Announcement

The Gerry Lanier Graduate Student Symposium for the Northeastern Forest Pest Council (NEFPC) meeting will be held on 22-23 March 2011 in Milford, Pennsylvania (pop. 1,104). This is an invitation to any or all graduate students working in the general area of forest health to participate in this annual event. Please forward this message to these students and their advisors.

The Forest Pest Council meeting announcement and registration will be sent in the near future.

Any graduate student who is willing to give a 15 min presentation on his/her research on forest health will be reimbursed for one night's lodging at the meeting, and the registration fee will be waived. In addition, one or more deserving students will receive \$50-\$200 for what is judged as the best presentations at the Symposium. This will be a worthwhile experience.

The Symposium gives graduate students from the northeastern U.S. and eastern Canada a friendly and relaxed setting in which to practice their presentation skills, and it affords an opportunity to discuss their work with practitioners and other scientists.

To participate, an abstract for the presentation must be sent to me by February 25, 2011. Send the abstract as a Microsoft Word or similar text document attached to an email, or fax it to:
