

IUFRO Conference – Abstract submissions

Dear All,

This is just a reminder that the deadline for submission of abstracts for the IUFRO Conference “Enhancing the performance and sustainability of eucalypt plantations to broaden their benefits”, that will be held in Colonia del Sacramento, Uruguay, from 20th-24th November 2023, is **July 16th**, which is already pretty close.

All are welcomed to submit abstracts for oral or poster presentations. The list of sessions and all information about the congress can be consulted on the website: <https://iufroeucaiptusuy2023.org/>

Best regards, Gustavo

Dr. Gustavo Balmelli
