

GREEN RISK 4 ALPS

We dedicate the first day to supporting the important and continuous dialogue between scientists, practitioners, policy makers and the public. In one afternoon, we will spotlight current research, and ask representatives of the key actors and networks Alpine Convention, EUSALP, GLOMOS, IUCN, IUFRO, PLANALP, and the Interreg Alpine Space program the important question: “Natural hazard risk: Saving the Alpine future with or without protective forest?”

On day two, we facilitate the bi-directional exchange between scientists and practitioners by presenting innovative decision support tools for ecosystem-based risk management that were developed in the GreenRisk4ALPs project but also by other experts from different Alpine countries.

We hope to welcome you online or in the spectacular setting of Innsbruck, to learn, to connect, to discuss and to move forward together at managing our mountain forests sustainably as a protection measure against natural hazards.

The conference is free of charge and open to everyone. Please visit www.alpine-space.eu/projects/greenrisk4alps/en/home

Supporting risk-based protective forest management as part of an integral and ecosystem-based natural hazard risk management in the Alpine Space

Monday 28 June 2021

14.00 – 18.00 Public Dialogue Event
Science, practice and policy discuss “Natural hazard risk: Saving the Alpine future with or without protective forests?”

Tuesday 29 June 2021

9.00 – 14.45 GreenRisk4ALPs Final Conference
Research meets practice to support risk-based decisions for managing protective forests in the Alpine Space

15.30 – 18.00 Innsbrucker Hofburggespräch
GreenRisk4ALPs – Entscheidungstools für ein risikobasiertes Schutzwaldmanagement (in German)

18.30 – 21.00 Reception in Innsbruck
In memory of Dr. Karl Kleemayr, researcher, creative spirit, networker, and jazz musician

GreenRisk4ALPs MOUNTAIN FOREST CONFERENCE 28 – 29 June 2021

Virtual Conference and Public Event

PROGRAM AT A GLANCE

Monday 28 June 2021

ONLINE

Science, practice, and policy discuss “Natural hazard risk: Saving the Alpine future with or without protective forest?”

Science for the Alpine future – EU projects in the spotlight

14.00 – 15.30

Featuring GreenRisk4ALPs, RockTheAlps, PHUSICOS, ALPTREES and AlpES.

EUSALP, PLANALP, GLOMOS and IUCN: Important actors and their vision for the Alpine Space

16.00 – 17.00

Join this session and learn more about what's behind these acronyms.

Panel Discussion: „Natural hazard risk: Saving the Alpine future with or without protective forests?

17.15 – 18.00

... is what we ask representatives from science, policy and practice.

EUROPEAN UNION

Tuesday 29 June 2021

ONLINE

Research meets practice to support risk-based decisions for managing protective forests in the Alpine Space

GreenRisk4ALPs decision support tools for risk-based protective forest management

09.00 – 11.30

New information, methods and tools will be presented such as FAT - our Protective Forest Assessment Tool

Best practice examples from Austria, France, Germany, Italy and Slovenia

11.30 – 12.00

Learn more about the content of our protective forest book No. 1

Friends of GreenRisk4ALPs: Mountain protective forests as Eco-DRR

13.30 – 14.45

Listen to experts and their cutting edge research highlighted in our protective forest book No. 2

HYBRID EVENT

Innsbrucker Hofburggespräch meets GreenRisk4ALPs

15.30 – 18.00

Erfahre mehr über Instrumente und Methoden für ein zielgerichtetes Schutzwald- und Risikomanagement

Reception in Innsbruck

18.30 – 21.00

In memory of Dr. Karl Kleemayr, who initiated and led the GreenRisk4ALPs project.

Project lead

Dr. Michaela Teich

DI Dr. Karl Kleemayr †
